DATE: January 25th - 26th, 2019

Registration opens Nov. 5th, 2018

Open to **ALL HIGH SCHOOL JUNIORS & SENIORS**
interested in science, technology, engineering, & math

contact us at hsc@swetamu.org
or visit swetamu.com/high-school-conference

The Texas A&M University section of the Society of Women Engineers would like to invite all high school juniors and seniors, parents, teachers and counselors to our 43rd Annual High School Conference:

You've Got An Engineer In Me

The conference will be held Friday and Saturday, January 25-26, 2019 at the Texas A&M University campus in College Station, TX. The conference is open to all high school juniors and seniors, especially those interested in math, science or engineering related fields.

This two day event will cost \$50 and will include engineering competitions, department and lab tours, panel discussions, interactions with Texas A&M engineering students, and much more!

Due to space limitations, we are only able to accommodate 100 students and 20 adults. Spots will be assigned on a first come/first serve basis as we receive completed registration forms and payment. Within each high school, registration will be limited to the first twenty participants to return completed registration packets. Every individual attending the conference, whether student, parent, or educator, must fill out a registration form and pay the registration fee.

Registration opens on November 5, 2018 and closes on December 3, 2018. Registration information and more details are available at <https://www.swetamu.com/high-school-conference>. Confirmation packets containing information regarding logistics will be sent out via email after all registration documents and full payment have been received. The registration refund deadline is January 11, 2019.

Housing with a current Texas A&M student in their dorms Friday night will be handled on a first come/first serve basis. You will find out if you can stay on campus by Friday, December 28, 2018. Students who register after all overnight dorm spots have been filled will be asked to either make alternate housing arrangements or withdraw and be refunded. We encourage all students to try to take advantage of this opportunity, but we do also allow attendees to spend the night at home or make reservations with their parent at a hotel for the night of the conference. Please note that a parent or other approved adult must be present for all check-in and check-out procedures, students will absolutely not be allowed to leave on their own.

We are looking forward to meeting each of you, and hope that this conference will give you some valuable insight into both the field of engineering and Texas A&M University. If you have questions or need assistance in any way, email us at hsc@swetamu.org. We hope to see you at the 43rd Annual High School Conference!

Sincerely,

Joyanna Mazzone, Maitreyi Ramaswamy, Sarah White
