SUMMARY OF ENDORSEMENT OPTIONS BY CAMPUS 24

It is the policy of GCCISD not to discriminate on the basis of race, color, national origin, sex, disability, or age in its programs and activities, including educational and extracurricular programs and hiring and employment activities. Furthermore, GCCISD will take steps to assure that lack of English language skills will not be a barrier to admission and participation in all educational and CTE programs and employment with the District. For information about your rights, the District's non-discrimination policies, or grievance procedures related to these policies, contact the Title IX Coordinator, Eloy Chapa, Assistant Superintendent (eloy.chapa@gccisd.net), and/or the Section 504 Coordinator, Holli Pharis (holli.pharris@gccisd.net), at 4544 I-10 East, Baytown, TX or call 281-420-4800.

WELCOME TO HIGH SCHOOL

You are about to make one of the most exciting transitions of your life! You must, however, make several choices to be sure your high school experience is the best it can be.

CAMPUS OPTIONS

Eighth grade students (Class of 2026) have many options when planning for their high school years. All 8th graders will choose a program of study from the traditional high school campus to which they are zoned.

If interested, they may also choose to apply to one of the many high school options that are available.

8TH GRADE PLANNING TIMELINE

STEP 1: If interested, apply to a career academy, cosmetology program or IMPACT by completing the online application that is available in October.

10/25/21 – 11/12/21	8TH GRADE HIGH SCHOOL OPTIONS APPLICATION WINDOW 8th grade students interested in applying to a career academy, cosmetology program or IMPACT need to complete the online application that can be found at www.gccisd.net .
11/12/21	8TH GRADE HIGH SCHOOL OPTIONS APPLICATIONS DEADLINE
11/19/21	8TH GRADE HIGH SCHOOL OPTIONS ACCEPTANCE LETTERS DISBURSED TO STUDENTS 8th grade students who are accepted to a career academy, cosmetology program or IMPACT will receive an acceptance letter.
12/1/21	8TH GRADE MANDATORY PARENT MEETING Mandatory parent meeting for students accepted into cosmetology or an academy.
12/2/21	8TH GRADE MANDATORY PARENT MEETING FOR IMPACT ACCEPTANCE
1/5/22 – 7/31/22	8TH GRADE 2ND ROUND OF HIGH SCHOOL OPTIONS APPLICATIONS WINDOW OPEN 8th grade students will have the opportunity during the 2nd round of applications to apply online to a career academy, cosmetology program or IMPACT based upon space availability in each program.

STEP 2: High School Course Selection based on Program of Study.

1/10/22 – 1/28/22	8TH GRADER PROGRAM OF STUDY SELECTION All 8th grade students will select an endorsement and program of study for the campus they are zoned to.
-------------------	--

- ▶ Academy of Agricultural Science at Stuart Career Tech HS
- ▶ Advanced Automotive Academy at Stuart Career Tech HS
- ▶ Cosmetology Program at Robert E. Lee HS
- ▶ Academy of Culinary Arts at Stuart Career Tech HS
- ▶ Digital Communications Academy at Stuart Career Tech HS
- ▶ Career Academy for Future Educators at Ross S. Sterling HS
- ▶ Global Business Academy at Goose Creek Memorial HS
- ▶ Health Science Academy at Ross S. Sterling HS
- ▶ IMPACT Early College HS
- ▶ Information Technology Career Academy at Stuart Career Tech HS
- ▶ Manufacturing & Industrial Maintenance Career Academy at Stuart Career Tech HS
- ▶ Science, Technology, Engineering & Math (STEM) Academy at Robert E. Lee HS

Career Academies

The Goose Creek CISD Career Academies are small learning communities within larger campuses that focus on a career theme. Academy students take classes as a group (cohort) which provides students the opportunity to attend classes with other students with similar interests.

Academic classes integrate the career theme into assignments, with projects that span across multiple subjects. Students learn from a rigorous curriculum, which includes opportunities for Advanced Placement (AP) courses, dual credit courses, career-oriented courses, and college and career learning opportunities directly related to the career theme. Enrichment activities that help students learn more about college and career opportunities are provided each semester and culminate in a senior capstone experience that may include internships, practicums, mentoring or other career-based experiences.

All 8th grade students may apply to any of the Goose Creek CISD Academies regardless of the high school to which they are zoned. The district provides transportation to each of the academies for all students. Academy students at REL, RSS & GCM are eligible for the extra-curricular activities that are available at each of the high schools. All academy students are expected to participate in the career and technical student organization connected to their curriculum. SCTHS students can participate in extracurricular activities that are available at their zoned campus.

Early College High Schools

Early College and Pathways to Technology (P-TECH) High Schools are innovative schools that are designed to overlap high school and college. They enable highly motivated students to complete an associate's degree or a college certification program before they graduate from high school. The majority of classes taken by students are college-level classes, some taught by college teachers and on the college campus. These campuses provide dual credit college courses at no cost to students, provide academic and social support services to help students succeed, increase college readiness, and reduce barriers to college access. Transportation is provided for students who are accepted into an early college or P-TECH high school. Students must complete the full application process in October to be considered for an early college high school. GCCISD offers two (2) early college high schools: IMPACT Early College HS and Stuart Career Tech HS. The Pathways in Technology ECHS at SCTHS focuses on career pathways working with community partners to design activities to connect students to their career pathway while earning college credit.

Traditional Zoned Campus

These high schools are the campuses that students are zoned to attend based upon their address. Each zoned campus offers a comprehensive academic and enrichment curriculum, with many athletic, fine arts, and additional programs to engage students in their high school experience. GCCISD has three traditional high schools: Goose Creek Memorial HS, Robert E. Lee HS and Ross S. Sterling HS.

PROGRAM OPTIONS

Honors/AP Program

The Honors Program provides GCCISD students with the opportunity to seek college-level studies while still in high school. By taking Honors classes and the corresponding Honors exams, a student may earn college credit and/or advanced placement if the student's exam score meets the criteria set by his/her university or college. By taking an Honors course and scoring successfully on the related Honors exam, students can save on college expenses. For more information on GCCISD AP classes, visit the Advanced Academics web page at <https://bit.ly/3utMKrj>. Honors classes are available at all traditional school campuses.

AVID (Advancement Via Individual Determination)

AVID is an elective course taken during the school day. AVID students learn organizational and study skills while developing critical thinking and problem solving skills. They learn to ask probing questions, receive academic help from peers and college tutors, and participate in enrichment and motivational activities that make college more attainable. Students enrolled in AVID are required to enroll in at least one of their school's most rigorous classes, such as Honors, Advanced Placement, or dual credit. Students must complete an application to participate in AVID. AVID is available through the career academies, the traditional and early college high schools.

Career & Technical Education

Goose Creek CISD's CTE programs on the traditional high school campuses offer a world of rigorous and relevant programs that allow students to explore a range of options for their future—including college and career—while still participating in athletics, fine arts, and other extracurricular activities. They expand students' high school experiences by providing opportunities for work-based learning through paid and unpaid experiences including internships, job shadowing, mentorships and networking with local community leaders. CTE students can also participate in career and technical student organizations (CTSOs) and earn college credit while still in high school. CTE courses help build students' self-confidence by delivering academic and employability skills and industry credentials that lead to success in college and career. GCCISD CTE programs are open to all students although the number of seats in each program may be limited by space. For more information on GCCISD CTE programs, visit <http://www.gccisd.net/CTE>.

Dual Credit

Dual credit is a process by which a high school student enrolls in a college course and receives simultaneous credit for the course from both the college and the high school. This is a great opportunity to save both time and money! In order to enroll in a dual credit course, a student must complete a series of steps that are involved in the registration process. The first step is to meet with his/her high school counselor and receive written approval through the counselor to take the course and written approval from the parent/guardian to register for the course. For more information regarding the GCCISD Dual Credit Program, visit the Advanced Academics web page at <https://bit.ly/3utMKrj>. Dual credit classes are available at all high school campuses.

IMPORTANT COURSE SELECTION TERMS

This is just a short list of terms related to the high school options presented in this publication. Be sure to refer to the High School Course Description Guide for much more information about successful high school, college and career planning!

Coherent Sequence of Courses

A coherent sequence of courses is a series of at least four courses, at least one credit per grade level, that lead to a student's learning the academic and hands-on skills required to be college and career ready upon high school graduation in a very specific program of study.

Endorsement

GCCISD students may earn an endorsement on their high school graduation diploma by completing a coherent sequence of courses in a specific pathway along with other curriculum requirements, including a 4th credit of math and science and 2 additional elective credits. Students in GCCISD may choose from all five Texas Endorsements: Arts & Humanities, Business & Industry, Multidisciplinary, Public Services, and Science, Technology, Engineering and Math (STEM). The STEM endorsement requires an additional credit in math and additional credit in science including Algebra II, Chemistry and Physics.

HIGH SCHOOL GRADUATION ENDORSEMENTS

FOUNDATION GRADUATION REQUIREMENTS:

- ▶ **ENGLISH:** 4 credits
- ▶ **MATH:** 3 credits
- ▶ **SCIENCE:** 3 credits
- ▶ **SOCIAL STUDIES:** 3 credits
- ▶ **FOREIGN LANGUAGE:** 2 credits
- ▶ **TECHNOLOGY:** 1 credit
- ▶ **HEALTH:** 1/2 credit
- ▶ **P.E.:** 1 credit
- ▶ **Fine Arts:** 1 credit
- ▶ **Electives:** 5 credits

ARTS & HUMANITIES

A student may earn this endorsement by completing the following:

The FOUNDATION GRADUATION REQUIREMENTS AND

- ▶ One additional credit in math
- ▶ One additional credit in science, CTE Science or other approved elective

PLUS ONE OF THE FOLLOWING OPTIONS:

FINE ARTS OPTION: A coherent sequence of four (4) credits from one (1) of the following areas OR four (4) credits consisting of two (2) sequential credits from two (2) of the following areas:

- ▶ Art
- ▶ Dance
- ▶ Music
- ▶ Theatre

LANGUAGE OTHER THAN ENGLISH OPTION:

Four (4) levels in the same language other than English OR two (2) levels of one language other than English & two (2) levels of a different language other than English

SOCIAL STUDIES OPTION:

- ▶ Five (5) social studies courses

BUSINESS & INDUSTRY

A student may earn this endorsement by completing the following:

The FOUNDATION GRADUATION REQUIREMENTS AND

- ▶ One additional credit in math
- ▶ One additional credit in science or CTE Science

AND

A coherent sequence of courses for four (4) or more credits in CTE that consists of at least two (2) courses in the same career cluster, including:

- ▶ Agriculture, Food & Natural Resources
- ▶ Architecture & Construction
- ▶ Arts, Audio/Video Technology & Communications
- ▶ Business, Marketing & Finance
- ▶ Hospitality & Tourism
- ▶ Information Technology
- ▶ Manufacturing
- ▶ Transportation, Distribution & Logistics

Four-Year Plan

A student’s four-year plan is the list of required and elective courses that the student plans to take during high school in order to meet the state and district requirements for graduation plus the additional courses the student will take to develop the knowledge and skills necessary to meet the student’s goal for postsecondary education and/or the workforce.

Pathways

Every endorsement is broken down into multiple pathways that represent a broad career cluster or career fields that require

similar academic and technical knowledge and skills. Each pathway is numbered and may include multiple Programs of Study.

Program of Study

A program of study is a comprehensive, structured approach for delivering a coherent sequence of courses, both academic and technical, that prepare students for postsecondary education and entry level careers in a specific occupation or in closely related occupations. upon high school graduation.

- ▶ Students must select an endorsement in the ninth grade.
- ▶ Students earn an endorsement by completing the curriculum requirements for the endorsement, including a fourth credit of math & science and 2 additional elective credits.

MULTIDISCIPLINARY

A student may earn this endorsement by completing the following:

The **FOUNDATION GRADUATION REQUIREMENTS AND**

- ▶ One additional credit in math
- ▶ One additional credit in science or CTE Science

PLUS ONE OF THE FOLLOWING OPTIONS:

4X4 OPTION: Four (4) credits in each of the four foundation subject areas (English, math, science & social studies), including English IV and chemistry and/or physics

ADVANCED CTE COURSE OPTION:

Four (4) Advanced CTE courses that prepare a student to enter the workforce or postsecondary education successfully without remediation from within one endorsement area or among endorsement areas that are not in a coherent sequence

COLLEGE LEVEL COURSE OPTION:

Four (4) credits in College Board Advanced Placement or dual credit courses, selected from English, math, science, social studies, economics, foreign language or fine arts.

PUBLIC SERVICES

A student may earn this endorsement by completing the following:

The **FOUNDATION GRADUATION REQUIREMENTS AND**

- ▶ One additional credit in math
- ▶ One additional credit in science or CTE Science

PLUS ONE OF THE FOLLOWING OPTIONS:

CTE OPTION:

A coherent sequence of courses for four (4) or more credits in career education that consists of at least two (2) courses in the same career cluster, including:

- ▶ At least one Advanced CTE course, and
- ▶ A final course in the sequence from one of the following career clusters:
 - ▷ Education & Training
 - ▷ Health Science
 - ▷ Human Services
 - ▷ Law, Public Safety, Corrections & Security

MC JROTC OPTION:

Four (4) courses in MC JROTC

SCIENCE, TECHNOLOGY, ENGINEERING & MATH

A student may earn this endorsement by completing the following:

The **FOUNDATION GRADUATION REQUIREMENTS AND**

- ▶ One additional credit in math
- ▶ One additional credit in science or CTE Science

PLUS ONE OF THE FOLLOWING OPTIONS CTE OPTION

A coherent sequence of courses or four (4) or more credits in CTE that consists of at least two (2) courses in the same career cluster, including:

- ▶ At least one Advanced CTE course, and
- ▶ A final course in the sequence from the STEM Career Cluster

MATHEMATICS OPTION

Two (2) additional courses for which Algebra II is a prerequisite

SCIENCE OPTION

Two (2) additional science courses

COMBINATION OPTION

A coherent sequence of three (3) additional credits from no more than two of the options above CTE Option

ACADEMY OF AGRICULTURAL SCIENCES AT SCTHS

The Academy of Agricultural Sciences provides students with a strong academic foundation in veterinary studies with an emphasis on hands-on learning and problem solving which prepares students to sit for the Certified Veterinary Assistant Exam, offered through the Texas Veterinary Medical Association. Students will be well prepared to enter the workforce as a CVA and/or continue their post-secondary education to work towards becoming a Veterinary Technician or Veterinarian. Special opportunities include assisting in operating the SCTHS Pet Clinic and Spa, job shadowing and conferences by guest speakers, all of which enhance the student's experience in the program and provide information about the field of study. Additionally, students have the opportunity to participate in FFA, a Career and Technical Student Organization, dedicated to the advancement of agricultural studies. Students have the opportunity graduate with a Business & Industry Endorsement and Performance Acknowledgment by earning college credits and a Veterinary Assistant Certification.

BUSINESS & INDUSTRY ENDORSEMENT OPTIONS:

004-BI-VETERINARY ASSISTANT

ADVANCED AUTOMOTIVE ACADEMY AT SCTHS

Automotive & Collision Repair Technicians are one of the top 25 high-growth, high-skill, high-wage occupations in Texas. In the Advanced Automotive Academy, students learn the skills required to begin a successful career in the automotive and collision repair industries. Academic and technical classes combine automotive workplace knowledge and skills in an integrated curriculum using a NATEF certified facility. Partnering with Lee College, students can earn both high school and college credit for many of their academic and technical courses. Four years in the Advanced Automotive Academy will lead students to a Business & Industry Endorsement, a college associate degree or certificate, along with Performance Acknowledgments for earning Automotive Service Excellence (ASE) and ICAR certifications. Seniors may participate in internships, and scholarships are available to graduates.

BUSINESS & INDUSTRY ENDORSEMENT OPTIONS:

COSMETOLOGY PROGRAM AT REL

The Cosmetology Program at Lee High School is designed to meet the needs of high school students who desire to enter the personal care services industry in a minimum amount of time. Lee HS partners with Lee College to provide students the opportunity to earn both high school and college credit for their cosmetology classes. The program provides the student with the technical background and experience necessary to develop the skills and theoretical knowledge required to pass the Texas Department of Licensing and Regulation Examination to become a licensed Cosmetology Operator and to gain employment in professional salons. Students must pay a \$50 dual credit fee annually and a one-time fee of \$25 for a cosmetology student permit. Purchasing individual kits of equipment is optional for students.

ACADEMY OF CULINARY ARTS AT SCTHS

Students in the Academy of Culinary Arts earn college credit while they learn to feed the world while developing their passion for creating beautiful, healthy meals. Students study culinary techniques, nutrition, food chemistry, food processing and restaurant management in order to enter the 6th ranked industry on Texas Workforce Commission's list of Gulf Coast Occupations with Most Jobs Added Due to High Growth. With a team of teachers at each grade level, students' academic and technical classes integrate related culinary activities into their coursework and class projects span across academy courses. Students gain experience in the industry working in the on-site Culinary Café, along with catering community events and serving in internships in local business and industry. By the time these Culinary students graduate from high school with a Business & Industry Endorsement, they will have also earned Performance Acknowledgments for having completed their associate degree or certificate through Lee College dual credit classes and having earned industry certifications.

BUSINESS & INDUSTRY ENDORSEMENT OPTIONS:

DIGITAL COMMUNICATIONS ACADEMY AT SCTHS

Students in the Digital Communications Academy will learn about different audio, video and digital media formats that will prepare them for a career in Digital Communications. The courses in the pathway prepare students for occupations and educational opportunities associated with the production of audio and visual media formats, such as TV broadcasts, advertising, video production, or motion pictures. This Academy may also include exploration into operating machines and equipment to record sound and images, such as microphones, sound speakers, video screens, projectors, video monitors, sound and mixing boards, and related electronic equipment.

CAREER ACADEMY FOR FUTURE EDUCATORS AT RSS

The Career Academy for Future Educators (CAFÉ) at Sterling prepares students for a career in Education. Students engage in exciting education curriculum, job shadowing, internships and college preparation activities. With a team of teachers at each grade level, students' academic and technical classes integrate related education activities into their coursework and projects that span across academy classes. Business partners such as GCCISD Elementary, Junior, and High School campuses, Bay Area Rehab Center and local daycare centers provide students with internship opportunities to explore the vast field of teaching. Students participate in Texas Association for Future Educators (TAFE) and Educators Rising (state and national organizations) where they have the opportunity to compete against other students in education related events. Academy students earn a Public Service Endorsement with Performance Acknowledgments by earning Microsoft Office Specialist, CPR and Education Aide (after graduation). They are also eligible for the BAER² scholarship upon graduation. Students will have the opportunity to obtain an Associate of Arts in teaching.

GLOBAL BUSINESS ACADEMY AT GCM

The Global Business Career Academy at Goose Creek Memorial (GCM) offers students engaging business curriculum, job shadowing and internships, career certifications, and preparation for college and the business world. Academy students can choose the Business Management or Dual Credit Associate's Plan that includes a highly rigorous business coherent sequence of courses that supplement with additional career courses in Business, Finance, Marketing and Accounting. With a team of teachers at each grade level, students' academic and technical classes integrate related business activities into their coursework and projects that span across academy classes. Business partners such as Beacon Credit Union, Walgreens, and Chick-fil-A provide opportunities to learn about the business world. Students even have an opportunity to have an internship in places like the Beacon Credit Union, Walgreens, and Chick-fil-A as part of their senior year experience. Academy students earn a Business & Industry Endorsement with Performance Acknowledgments by earning Microsoft Office Specialist certifications.

HEALTH SCIENCE ACADEMY AT RSS

For careers in biomedical and health sciences, the Sterling Health Science Career Academy places students on a path of excellence. Academy students have the option to complete the Project Lead the Way-Biomedical Science Pathway, the Healthcare Diagnostics & Therapeutics pathway or an EMT Level 1 Certificate pathway. Students also have an opportunity to earn an Associate's degree. In the Biomedical Science pathway, students explore and find solutions to some of the most pressing medical challenges. Students step into roles of biomedical science professionals and investigate topics including human medicine, physiology, genetics, microbiology and public health. In the Healthcare Diagnostics & Therapeutics pathway, students explore healthcare careers, learn the language of medicine, learn common healthcare skills, and have the opportunity to observe in various healthcare settings around Baytown. This pathway ends with a practicum course, where students can earn a CNA, CCMA, Pharmacy Technician, EKG, or Phlebotomy certification. In the EMT pathway, students take dual credit courses to earn a level 1 certificate in EMT at Lamar Institute of Technology. In the EMT course, students participate in emergency room and ambulance clinicals. Academy students also have an opportunity to earn other certifications such as Microsoft Office, Stop-the-Bleed, Teen CERT and CPR.

IMPACT Early College High School is a unique school that serves students who are ready and eager to do serious college work. It enables highly motivated students to move in four years from the ninth grade through the first two years of college, earning their high school diploma and potentially earning an associate's degree or becoming Core Complete through our partnership with Lee College. After graduation from IMPACT, students are expected to continue to pursue their bachelor's degree or higher post-secondary associate's degrees.

IMPACT has been recognized in Newsweek as a top school that prepares economically challenged children for college, has been awarded Bronze and Silver Medals from U S News and World Report's Best High Schools, has been ranked as one of the Best Schools through Niche, including being named a Niche Standout High School in America, was named to the Texas Honor Roll which recognizes public schools that demonstrate high levels of student academic achievement, improvement in achievement over time and reduction in achievement gaps, and received an "A" from Houston Magazine's list of Top Houston Public Schools.

IMPACT prepares students to be successful, independent college students by providing:

- ▶ College-ready academic behavior and skills
- ▶ College placement exam preparation (TSIA)
- ▶ College course support
- ▶ ACT/SAT prep
- ▶ Navigation through college systems
- ▶ Assistance with college application and financial aid

What does the IMPACT schedule look like?

Our schedule is a combination of high school and college courses that are aligned with the Lee College schedule. We have a block schedule, with 4 periods per day, for a total of 8 periods.

Why choose IMPACT?

- ▶ We provide dedicated staff to guide and support students throughout your blended high school and college experiences, and we prepare you by creating a seamless transition between high school and college.
- ▶ Students start courses at Lee College once they meet college-readiness standards. If college-ready, students may start college courses their freshman year. And, students attend college classes during the day either at IMPACT or on the Lee College campus.
- ▶ You could earn *tuition-free college credit* that also satisfies high school requirements. IMPACT Early College High School is an outstanding value and investment of time and effort for our students. At Texas colleges, the average cost for 60 college hours is around \$20,000.00 The cost for IMPACT students is \$0! There is no cost for tuition, transportation or textbooks.
- ▶ Students have access to Lee College support services including college advising, career counseling, student activities, and free tutoring.

- ▶ You get a head start! Most to all college credits are transferable to public colleges and universities. *It is important to verify course transferability with your four-year institution.
- ▶ Our focus is academics. We are preparing our students for success as they continue on to complete their 4 year degree and beyond. This is a major factor students must consider before deciding that IMPACT is the school for them.

Can I get any degree I want from Lee College?

We work with you so that your hours will transfer to any public colleges and universities. We will tailor your core classes to align with your anticipated degree plan.

What if Honors is too hard?

We have tutorials, and we have dedicated teachers and staff to help you. We will support you to be successful, but you have to want it! Think about all of this before you submit your application. Remember that all of our classes are Honors or dual enrollment classes.

How can I get more information?

Students and parents may call IMPACT, 281-420-4802, or visit our campus website: <http://www.gccisd.net/IMPACT>.

Through Service Learning we reinforce:

- ▶ Collaborative work
- ▶ Problem-solving
- ▶ Continuous improvement
- ▶ Real-world learning and experiences
- ▶ Understanding of civic responsibility
- ▶ Leadership skills
- ▶ Commitment
- ▶ Positively impacting our community

Are you . . .

- ▶ willing and committed to work as an "honors" level student?
- ▶ willing and committed to invest four years in high school for two degrees?
- ▶ mature enough to handle the college setting?
- ▶ willing and committed to attend a university to complete a bachelor's degree?

IMPACT PROGRAM OF STUDY OFFERINGS

MULTIDISCIPLINARY ENDORSEMENT OPTIONS:

COLLEGE CREDIT OPTION:

_____ 4 credits in Academic Dual Credit

INFORMATION TECHNOLOGY CAREER ACADEMY AT SCTHS

Network and Computer Systems Administrators are projected to have above-average growth in the workforce. In the Information Technology Academy, students learn the skills required to begin a successful career in the network and computer systems/support industry. Academic and technical classes combine information technology workplace knowledge and skills using industry-standard certifications and curriculum. Partnering with Lee College, students can earn both high school credit and college credit for many of their academic and technical courses. Four years with the Information Technology Academy will lead students to a Business & Industry endorsement, a college associate degree or certificate, and a Performance Acknowledgment if they earn CompTIA A+, Network+, or CISCO certifications. Seniors may participate in internships and scholarships are available to graduates.

INDUSTRY ENDORSEMENT OPTION:

- 015-BI-CYBERSECURITY
- 042-BI-IT NETWORKING SYSTEMS

MANUFACTURING & INDUSTRIAL MAINTENANCE CAREER ACADEMY AT SCTHS

Students in the Manufacturing and Industrial Maintenance Academy learn about the many exciting careers in the petrochemical industries from entry-level craft occupations to careers requiring two- and four-year college degrees. With a team of teachers at each grade level, students' academic and technical classes integrate related manufacturing activities into their coursework with projects that span across academy classes to introduce how industry and technology work together to create the products we use every day. Careers in manufacturing and industrial maintenance make up 50% of the high-skill, high-growth occupations targeted by the Gulf Coast Workforce Board, and they offer exciting opportunities to academy students in designing and improving products, operating high-tech equipment, and analyzing problems to develop creative solutions. In addition to working on their associate degree or certificate in welding or pipefitting students can earn a Business and Industry Endorsement with Performance Acknowledgments by earning NCCER, AWS and other credentials and certifications.

INDUSTRY ENDORSEMENT OPTION:

SCIENCE, TECHNOLOGY, ENGINEERING & MATH ACADEMY AT REL

Lee High School hosts the Science, Technology, Engineering and Mathematics (STEM) Career Academy for Goose Creek CISD, which has earned a Texas Education Agency T-STEM Designation. The career academy is ideal for students desiring a career in STEM industries. Much like in college, students take at least one engineering class per year that empowers them to step into the role of an engineer, adopt a problem-solving mindset, and make the leap from dreamers to doers. The PLTW courses engage students in compelling, real-world challenges that help them become better collaborators and thinkers. Students take from this program in-demand knowledge and skills they will use in high school and for the rest of their lives. Students even have an opportunity to design new products that can change the world. Business partners such as ExxonMobil, Covestro, Samson and the city of Baytown provide opportunities to learn about the engineering world, and Lee College offers dual credit classes for the students to graduate with college credits. The STEM Academy also offers students the opportunity to acquire industry based certifications in Microsoft Office and FAA Drone Pilot's License. Students enjoy a well-rounded education with site-based industry field trips, robotics competitions, guest speakers, internships, job shadowing and college visits.
