- PEIMS
  o PEIMS Student Information Systems (SIS) will now send an API transaction for a student with a Student Characteristic value of 06 for an ECHS student or a 07 for a P-TECH student. As the data flows through the TSDS system, when it gets promoted to the PEIMS data mart, the following happens:
  o A Student Characteristic of 06 will be converted to a "1" for the ECHS indicator for the student. If a 06 is not reported, the student's ECHS indicator will default to 0.
  o A Student Characteristic of 07 will be converted to a "1" for the P-TECH indicator for the student. If a 07 is not reported, the student's P-TECH indicator will default to 0.
  o It is recommended as a best practice to code students not participating in ECHS or P-TECH with a 0, checkbox turned off, etc. as appropriate for the specific SIS.
